2025-2026

ANNUAL REPORT

INDIAN GRAMEEN SERVICES

A Snapshot of the Previous Year

IGS implemented **24 projects across 11 states, 55 districts, 101 blocks,** and **2,411 villages, reaching 198,435 households**. A significant milestone was the onboarding of seven new partners—Azim Premji Foundation, American Friends of EdelGive Foundation, BRAC International, District Horticulture Office (Government of Odisha), HDFC Bank Ltd., NatWest Digital Services India Private Limited, and Nayara Energy Limited. IGS also received **prestigious recognitions**, including the **Social Impact Award 2024, ICRT India Awards 2024 (Silver Honour), and Social Impact Organization 2024**. Another key highlight was achieving the **Great Place to Work (GPTW) Certification**, reaffirming IGS's commitment to fostering an inclusive and employee-centric workplace.

CHAIRPERSON'S COMMUNIQUE

The past year has built upon very satisfactorily on the strong foundations laid in the preceding years and we are at a stage where we have the wherewithal and leisure to dream a little more. However, it is perhaps easier to turn around operations than to find our way under the blue skies where a multiplicity of growth paths requires judicious choices and a careful balancing of core mission values and strengthening of our finances. **Our strategy to sharpen our focus on grant based projects and extension of our reach in the CSR domain has paid dividends and the path is fairly clear in this direction.** However, IGS has the task ahead of pursuing larger opportunities and increasing its footprint in its chosen area of social engagement.

I am grateful to the fellow Board members who have brought to the table new ideas and vision and who have actively worked with the IGS team through out the year to frame our strategies and future reference points.

I will be failing in my duty if I do not mention the **IGS team members at all levels who have continued to work tirelessly and delivered on their promises. Each and every member of this family has given full commitment and support to the team.** The team's engagement with their work and tenacity in difficult times needs to be appreciated as we see successful completion of many projects this year.

I also acknowledge with gratitude and humility the trust that has been placed in us by our funders. We look not only to their financial support but also their active participation in our effort and their appreciation of our innate desire to bring innovation and richness of ideas in the projects we execute on their behalf. We are indeed grateful for their support in our work.

The progress we have made this year augurs well for the coming years. Our commitment and deep desire to achieve status as the leading consultant and execution agency in the Country's livelihood mission will find their rewards as we continue our work single mindedly towards that end.

SWATI BHARGAVA DESAI

INDIAN GRAMEEN SERVICES

DIRECTOR'S COMMUNIQUE

It is a matter of great satisfaction to witness the steady progress of Indian Grameen Services (IGS) on achieving its Vision of "Kaayam Rozgar – Khush-haal Pariwar". Through everyone's dedicated efforts, the organisation continues to strengthen livelihoods, promote community resilience, and create meaningful opportunities for marginalized communities.

I appreciate the commitment and leadership of Mr. R.S. Solanki, CEO, and Dr. Sanjib Sarangi, COO, along with the entire management and field team, in enhancing the organisation's capabilities and preparing it to meet emerging development challenges. Their collective efforts have strengthened IGS's institutional systems, expanded its outreach, and reinforced its credibility among partners and stakeholders.

Today, **IGS is well-positioned to implement challenging projects with professionalism and accountability and further build strong partnerships with community, funders etc. The organisation's growing reputation is a reflection of the dedication of its programme teams as well as the effective support provided by the Accounts, Human Resources, and Operations functions and the Senior Management**, all of which contribute significantly to organisational excellence.

As the development landscape continues to evolve, IGS must remain innovative, agile, and committed to delivering sustainable impact. With its strong foundation, experienced team, and unwavering commitment to rural development, I am confident that the organisation will continue to scale new heights and make a lasting difference in the lives of the communities it serves".

SATTAIAH DEVARAKONDA

INDIAN GRAMEEN SERVICES

CHIEF EXECUTIVE OFFICER'S COMMUNIQUE

It gives me immense pleasure to present the **Annual Report 2025–26** of **Indian Grameen Services (IGS)**, capturing a year of meaningful impact, strategic growth, and valuable learning.
The financial year 2025–26 has been marked by strong partnerships, innovation, and our unwavering commitment to promoting inclusive and sustainable development. Guided by our mission, we continued to empower rural communities through diversified livelihood interventions in agriculture, natural resource management, and non-farm entrepreneurship, while also advancing youth capacity building and gender equity.

During the year, IGS successfully implemented **24 development projects across 12 states, reaching 1,35,166 households in 1,768 villages**. These achievements reflect the collective efforts of our dedicated team, our implementation partners, and the communities who continue to inspire us through their resilience and determination.

We also witnessed significant organisational growth, recording a **45% increase in our operations**. As we expanded our footprint, we remained committed to strengthening our institutional capacity by investing in staff development, attracting new talent, and building a strong cadre of development professionals with diverse technical expertise. This investment in people will continue to be the foundation of our long-term growth and impact.

A proud moment for IGS this year was receiving the **Best Civil Society Organisation (CSO) Award** from the **Hon'ble Chief Minister of Madhya Pradesh** in recognition of our successful implementation of the Rural Tourism Project across eight districts of the state. This recognition is a testament to the dedication of our colleagues, the confidence of our funding partners, the guidance of our Board of Directors, the strategic support of our co-founder, and the enduring trust of the communities we serve.

As we celebrate these milestones, we are equally focused on the future. During the year, IGS initiated the development of its new **five-year strategic plan**, which will guide our efforts to deepen impact, strengthen partnerships, foster innovation, and respond to emerging development challenges with greater effectiveness.

As we move forward, our commitment to our vision—**"Sustainable Livelihoods, Prosperous Households"**—remains stronger than ever. Together with our partners, donors, governments, communities, and supporters, we will continue to create opportunities that enable rural families to build resilient livelihoods and lead dignified lives.

I extend my sincere gratitude to our Board of Directors, funding partners, government agencies, community institutions, dedicated colleagues, and every individual who has contributed to this shared journey. Your trust and collaboration continue to inspire us to strive for greater excellence.

Let us carry this momentum forward with purpose, passion, and the shared belief that empowered communities are the foundation of a more inclusive, resilient, and prosperous future.

RADHESHYAM SOLANKI
INDIAN GRAMEEN SERVICES

ABOUT US

Indian Grameen Services is a national-level non-profit organization (NPO) with over four decades of journey as a development catalyst, established in 1987 under Section 8 of the Companies Act, 2013.

We are committed to address complex challenges in India, by design and implementing innovative, demand-driven, impact-oriented, and cost-effective Livelihood solutions. Its work is primarily focused on resource-deficient marginalised communities, vulnerable and poverty-affected geographies, in Central, Eastern, and North-Eastern India.

IGS contributes to the broader goal of promoting sustainable livelihoods, with a strong emphasis on improving the wellbeing of rural and peri-urban communities, including women and marginalized populations.

OUR VALUES

VISION

“कायम रोज़गार, खुश-हाल परिवार”

Sustainable Livelihoods - Prosperous Households

IGS envisions an equitable world where the poor and marginalized in rural areas, have access to livelihood opportunities on a sustainable basis, and are prosperous and happy.

MISSION

Incubating innovations for pro-poor sustainable livelihoods

To augment access of poor to sustainable livelihoods, IGS sees itself as a laboratory for incubating innovations that address the most pressing and resilient of livelihood challenges faced by the poor.

IGS fosters transformative community development and livelihoods through natural resource management, sustainable agriculture, livestock, renewable energy, non-farm entrepreneurship. It empowers marginalized and vulnerable groups of community and and capacity-building for sustainable, locally led development.

THEMATIC AREAS

NATURAL RESOURCE BASED LIVELIHOODS

AGRICULTURE AND ALLIED ACTIVITY BASED LIVELIHOODS

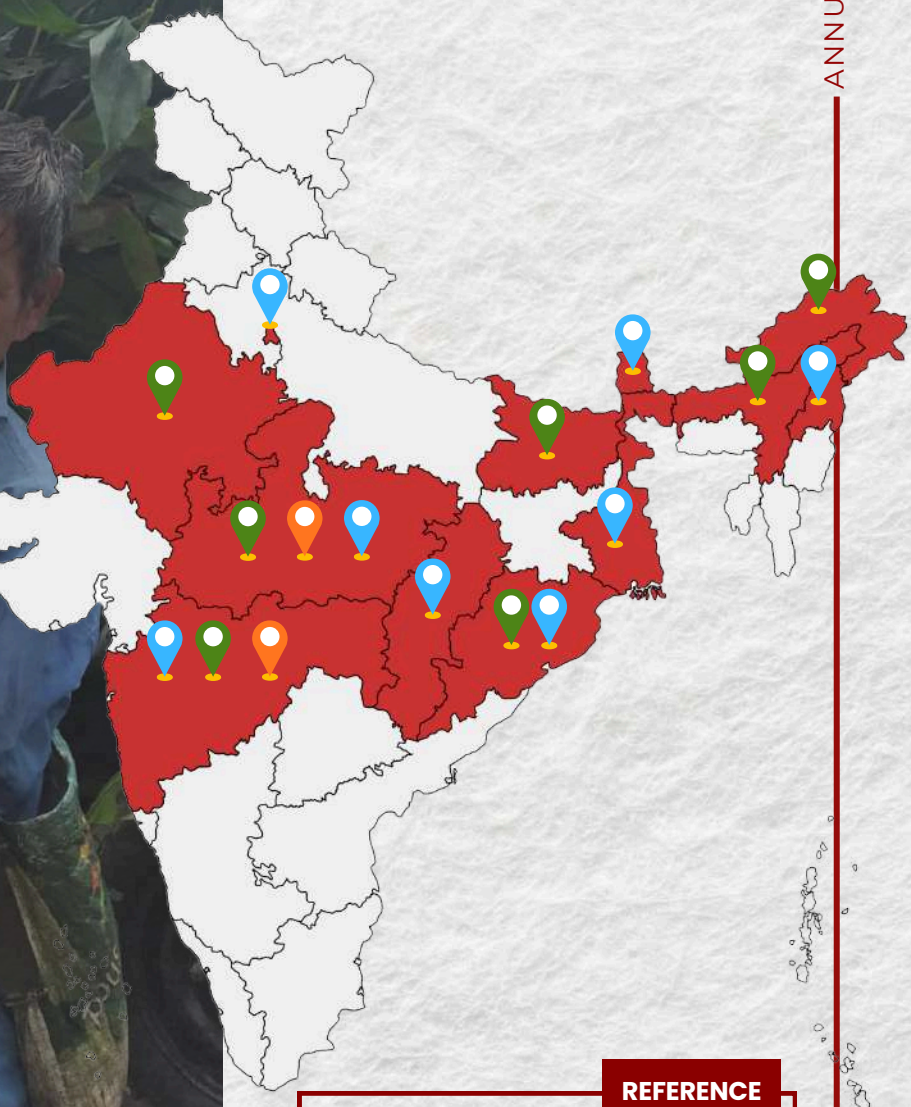

NON-FARM ENTREPRENEURSHIP & ENTERPRISE DEVELOPMENT

ROOTS DEEP, REACH WIDE

Indian Grameen Services through its journey impacted more than 3 million women, men and children of marginalised communities.

Indian Grameen Services (IGS) promotes conservation and restoration of natural resources, strengthening rural livelihoods through community-led environmental stewardship and resilience improving the health of land, water, forests, and local ecosystems.

Integrated Natural Resource Management (INRM): Community-led integrated management of land, water, forests, and biodiversity for sustainable livelihoods and ecosystems.

Ecosystem Restoration: Restoring degraded ecosystems through community participation to enhance biodiversity, and environmental sustainability.

Agro-ecological Enhancement: Promoting farming practices that work in harmony with nature, improving soil health, conserving resources, and supporting sustainable agricultural productivity.

Climate Resilient: Encouraging communities to adapt crops that withstand extreme climate.

Agroforestry: Promoting the integration of trees with agriculture to enhance farm diversity, sustainable ecosystem, and additional income of farmers

Watershed Management: Facilitating efforts in land and water use across the natural drainage area for soil and water conservation, improved water availability and sustaining local communities.

Community-Based Ecotourism: Supporting community-led responsible tourism creating sustainable livelihoods while conserving natural heritage and local culture.

INR 23.23 Crore leveraged through convergence

45 hectares of degraded landscapes and natural ecosystems restored

14,500 native trees planted

Key Highlights

"Rawta's Green Revival: Building Climate Resilience through Sustainable Practices at Rawta, Delhi". This project demonstrates community-led climate adaptation through bird tourism, climate-resilient agriculture, livestock, agroforestry, restoration, and non-farm livelihoods.

- Introduced improved health and nutrition managment among 422 families covering 1,000 livestock.
- Improve fodder availability via 30 azolla pits.
- Established 30 vermicompost units and 328 bio-fertilizer demonstration plots, promoting organic farming.
- Introduced Packages of Practices (PoP) for land reclamation
- Supported 250 kitchen gardens
- Enhance farm productivity by 02 solar-power unit
- Women-owned 35 biogas units promoting clean household energy.
- Enhancing green cover across 8.59 ha. through plantation.
- Training in partnership with B-Able Group, generated 20 rural youth with employable digital skills

"Support Ecological Security and Livelihoods of Ghamroj and Alipur village at foothills of the Aravalli hills, Gurugram". The objective is to ensure efficient water resource management and conservation, restoration of degraded landscapes through the plantation of native and climate-resilient species and improve school education on local biodiversity and conservation Initiative. Under this project:

- Conducted awareness rallies and campaigns engaging 114 participants reaching 1,962 households;
- Implemented 36 community activities reaching 786 participants with 75% women,
- Developed 4 thematic environmental training modules.
- Established a 97 KLD nature-based decentralized sewage treatment system using nature based solutions.
- Revived the 30-year-old Ghamroj pond through a percolation tank;
- Established 2 school biodiversity interpretation centres creating interactive learning spaces
- Supported wet and dry waste bins promoting waste segregation across 1,700 households and 10 institutions.

"Restoration of Riparian Areas of Narmada River Basin of Narmadapuram District, Madhya Pradesh". Through this project IGS is developing a model for restoring riparian areas and supporting its scaling up, starting with the Narmada River basin for the emergence of the appropriate People's Institution (Harit Narmada Sangathan) to build social capital and take stewardship. Under this project:

- Establisheed community institutions 7 SHGs & 8 Producer Groups have
- Plantation in 29.5 hectare, 11,594 plants of riparian areas restored
- Riparian areas restored through Assisted Natural Regeneration (ANR) in 3 Ha
- Promoted vegetable cultivation across 20 Ha, engaging 21 community partners through convergence.
- Established 10 units of vermi composting units &1 Bio Recourse Centre (BRC).
- supported 25 Ha through micro irrigation support.
- Facilitated convergence of INR 0.84 Cr

"Samruddha Kisan project implemented at Nandurbar District, Maharashtra" aims to develop an Integrated Village Development Model to improve lives and livelihoods, strengthen community wellbeing, and attain sustainability of the targeted families through various interventions. Under this project:

- Land levelling with 122 farmers activities covering 125 acres.
- Nala deepening facilitated irrigation for 18 HH, excavating 24,174.82 cubic meters
- Crop demonstration IN 402 plots leading to 37% improvement in yield.
- Trellis farming adopted by 20 farmers .
- Bund plantation among 30 farmers
- Solar domestic light in 144 HH
- Agri tool seeders - 100 unit
- Solar irrigation pumps, 3Hp supported to 10 WUA, covering 33 HH catering 90 acres
- Established 1 micro-weather station
- Rain pipe irrigation system supported to 50 farmers
- Nutrition Kitchen Garden among 450 farmers.
- 160 HHs have benefited from 2 solar drinking water units.
- Facilitated convergence of INR 0.37 Cr with 10% community contribution

High Impact Mega Watershed Project across Balrampur & Surajpur district of Chhattisgarh and Gondi district, Maharashtra". The objective is to enhance rural livelihoods and ecosystem resilience through integrated watershed management by conserving natural resources, improving soil and water health and empowering communities with capacity building. Under this project:

Chhattisgarh:

- 2,916 farmers trained on livelihoods.
- 19 nos. of Producer Groups formed.
- INR 7 Cr funds were leveraged for convergence.

Maharashtra:

- 10,138 farmers trained on livelihoods.
- INR 14.09 Cr funds were leveraged for convergence.

Project SAMARTH at Murshidabad district, West Bengal". The objective is to enhance the livelihoods of all small & marginal farmers and landless households through improved agriculture practices, livestock management, and irrigation facilities. Under this project:

- Strengthened grassroots institutions through 200 Farmer Producer Groups (FPGs) and 2 Livelihood Resource Centres (LRCs).
- Training programs in 54 FPG with 1,000 community members,
- Supported agri-inputs & scientific Package of Practices (PoPs), covering farmers 1,400 paddy farmers, 520 mustard , 225 lentil
- Improved farming practices leading jute production reaching 1,072 kg/acre with an average income of INR 68,132 per acre
- Livestock Supported in 280 landless households reducing goat mortality by 16.5% and increasing average annual income by INR 8,867

- Organized regular animal health camps, facilitating 1,230 farmers and over 2,000 goats,
- Nutrition enhancement through 359 Azolla pits
- Facilitated 4 solar-powered irrigation systems through Water User Groups
- Afforestation, vermicomposting, indigenous seed conservation, and sustainable farming practices, to 1,284 farmers with 3,000 tree saplings
- Enabled 3,578 farmers to access government schemes, mobilising ₹0.93 Cr convergence.

The interventions undertaken during FY 2025–26 reflect IGS's commitment towards building climate-resilient communities through an integrated approach combining natural resource management, sustainable agriculture, ecosystem restoration, renewable energy, livelihood diversification, and community institution strengthening. By promoting community ownership, strengthening local capacities, and facilitating convergence with government and institutional stakeholders, IGS has contributed towards creating sustainable livelihood opportunities, enhancing ecological resilience, and fostering long-term socio-economic and environmental well-being of rural communities.

Ms. Lakshmi Chauhan
Principal, Government Middle School, Alipur
Gurugram, Haryana

The interventions undertaken during FY 2025–26 reflect IGS's commitment towards building climate-resilient communities through an integrated approach combining natural resource management, sustainable agriculture, ecosystem restoration, renewable energy, livelihood diversification, and community institution strengthening. By promoting community ownership, strengthening local capacities, and facilitating convergence with government and institutional stakeholders, IGS has contributed towards creating sustainable livelihood opportunities, enhancing ecological resilience, and fostering long-term socio-economic and environmental well-being of rural communities.

Sanjay Bhimsing Valvi, President,
Village Development Committee (VDC)
Nandurbar, Maharashtra

As President of the Village Development Committee (VDC) in Vaslai, I am proud to share how the community contribution mobilized under the Samruddha Kisan Project has created meaningful impact in our village. Using the collective fund, we purchased a water tanker that is now helping meet the water needs of many households in our village and nearby communities. Beyond this, the VDC secured a village road construction assignment, generating ₹14,000 in income and 14 days of local employment, which further strengthened our community fund.

This initiative has demonstrated how community resources can be effectively utilized for the common good while creating sustainable opportunities for village development. The process has enhanced villagers' trust in the VDC, strengthened our confidence, and encouraged collective decision-making. We sincerely thank Indian Grameen Services (IGS) and ASK Foundation for their guidance and support in empowering our community and paving the way for a stronger and more self-reliant future.

Agri-and Allied

Activity Based Livelihoods

	March 2026
States	07
Districts	26
Blocks	51
Villages	964
Households	56, 217

IGS promotes sustainable and income-enhancing agriculture and allied livelihoods by combining improved farming practices, livestock management, resource-efficient technologies, and market-oriented approaches. The interventions focus on improving productivity, diversifying livelihood opportunities, reducing climate-related risks, and strengthening the economic resilience of small and marginal farmers.

Improved Agriculture Development: Promoting sustainable, climate-resilient farming practices to boost productivity, soil health, and farm incomes.

Small Ruminant-Based Livelihoods: Strengthening rural livelihoods through improved goat and sheep rearing, health, nutrition, breed management, and livestock services.

Integrated Farming Systems: Promoting diversified farming that combines crops, livestock, horticulture, and fisheries to optimize resources, improve nutrition, and increase household incomes.

Improved Livestock Management: Strengthening livestock rearing through better animal health, feeding, disease prevention, and capacity building.

Improved Horticulture and Pisciculture Management: Promoting better practices in fruit, vegetable, and fish cultivation to boost production, quality, and livelihoods.

Value Chain Development and Market Linkages: Strengthening value chains, processing, and market access to improve farmer incomes.

31 Farmer Producer Organizations Promoted

INR 2,878 lakhs Turnover Generated

26,138 Farmers Mobilized

12,691 Women Farmers Mobilized

Key Highlights

"HIGHLANDs (Inclusive Growth for Highland Landscapes) in Lower Dibang Valley, Shi Yomi Districts of Arunachal Pradesh & Sonitpur District, Assam". The objective is to Empower community & Social Capital, Improve Livelihoods & Economic Prosperity, Community & Climate Resilience, Local Collaboration & Convergence, Developing Community Champions (Cadres) & Drive Transformation. Under this project:

- Input support and technical guidance
- 40 households with 8,000 chicks, feed, sheds
- 115 households with livestock assets and veterinary services.
- 150 farmers fruit saplings
- Food Processing Unit, linked to 100 SHG members.
- Upgraded 6 homestay at Arunachal Pradesh
- Established 1 community water system , supporting 440 HH.
- Renovated 6 government schools, facilitating 585 students.
- Upgrated 4 Anganwadi Centers supporting 165 children and mothers.
- Established 20 plantation units with 12,000 saplings.
- Installed 6 irrigation systems, supporting 38 farmers, 4.5 ha.
- Installed 111 solar streetlights supporting 1,700 HH.
- Supported 80 solar home lighting systems

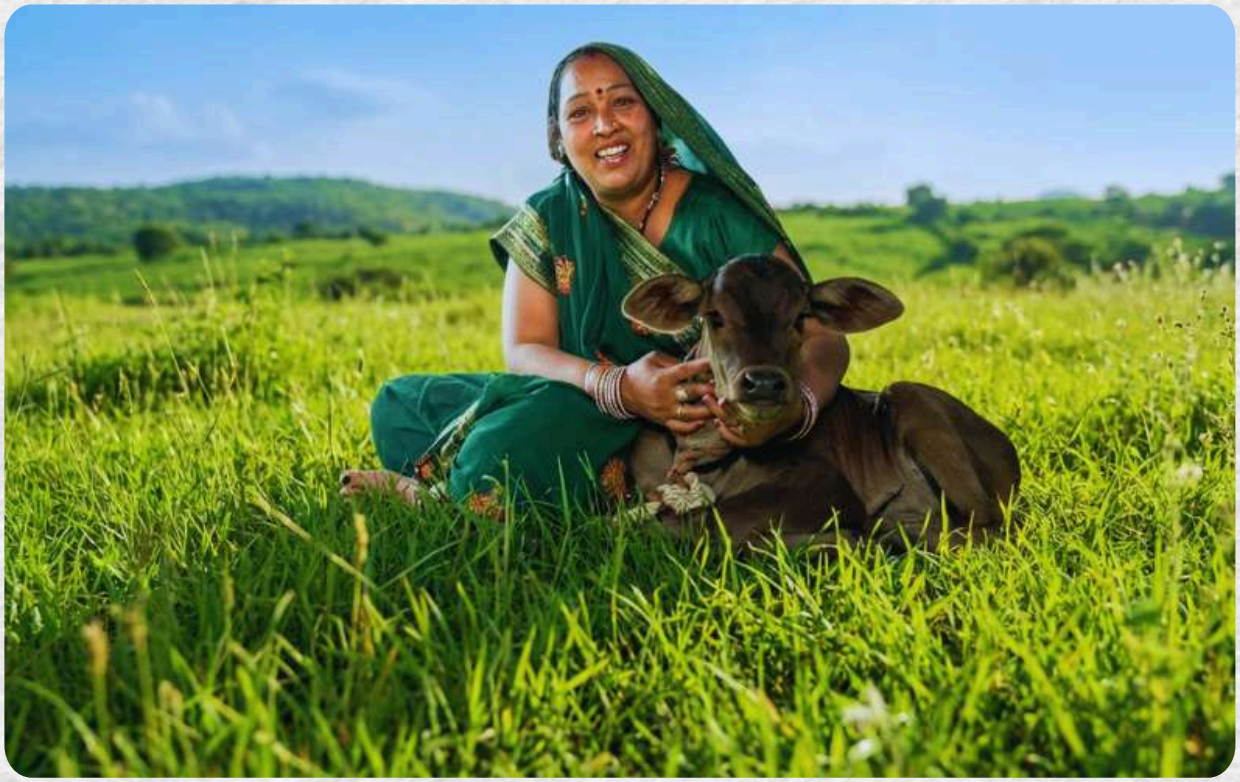

“Shwetdhara Program at Narmadapuram District, Madhya Pradesh”. Through this program, IGS aims at enhancing cattle productivity, improving farmers' livelihoods, and promoting sustainable dairy operations. Under this program:

- 16,535 cattle rearers were mobilized.
- 1,498 of meetings and trainings conducted
- INR 2.44 Cr is the total revenue generated from services
- 130 community cadres (Gramsakhis) were engaged as women entrepreneurs with annual average income INR 10,258

Empowering Farmer Producer Organizations through Agroforestry, Climate Smart Agriculture Practices, and Agribusiness Augmentation in Madhya Pradesh and Rajasthan”. Under this project:

- 36 number of FFS Training on Climate-Resilient Agricultural Practices for small and marginal farmers held across 9 FPCs of MP & Rajasthan and a total of 1,095 farmers were involved.
- As a part of the agroforestry initiative, a total of 1,91,800 fruit-bearing saplings were distributed to 529 farmers across all 9 FPCs, covering approximately 921 acres of land under plantation.

"Project SAAKSHYAM at Nandurbar district, Maharashtra". The objective is to Empower community & Social Capital, Improve Livelihoods & Economic Prosperity, Community & Climate Resilience, Local Collaboration & Convergence, Developing Community Champions (Cadres) & Drive Transformation. Under this project:

- Established 3 smart schools
- Kitchen Garden in 200 HHs
- Crop demonstration plots 30 unit were established.
- Developed 50 trellis demonstration plots
- Bund plantation with 100 farmers with 4,000 grafts planted.
- Supported 77 farmers with PVC pipes for irrigation.
- Land levelling with 87 farmers , catering 87 acres under cultivation.
- Vaccination 1,380 goats against PPR & FMD.
- Developed 30 fodder demonstration plots
- Installed 06 solar-based lift irrigation systems supporting 20 farmers.
- Installed 3 solar-based drinking water systems
- Supported solar home kits to 106 households

The **"Promotion of Agriculture Production Cluster (APC) project implemented at Sundergarh and Mayurbhanj, Odisha"** aims to enhance the productivity, profitability, and sustainability of small and marginal farmers. Under this program:

- Mobilised 4,156 women farmers
- Linkage of 1,719 PG members in collective marketing
- Institutional credit reieved by 1556 women farmers through SHG/Bank/PG/KCC etc.

"Project Livelihood Enhancement of People in Mining Affected Areas of Jajpur District through Management of Guava Orchard (under District Mineral Foundation)"aims to develop a sustainable guava orchard managed by rural women, leveraging community-based models of agriculture. Under this program:

- Skill training given to 350 women farmers
- Fomation of 05 Producer Group
- Guava sale 10,736 kgs this year with a turnover of INR 5,56,302 /-
- Mandays 1,589 generated this year.
- Convergence amount INR 4,33,797/- through MGNREGS.

Mukhya Mantri Janajati Jeevika Mission (MMJJM) across 5 blocks of Mayurbhanj district, Odisha". The objective of the program was ensuring sustainable livelihoods for ST families through diverse livelihood measures, infrastructure development, and improved living standards. Strengthening governance and community institutions, fostering social mobilization, and promoting capacity building. Supporting project sustainability through professional planning, implementation, and monitoring while ensuring convergence with national and state flagship programs for holistic development.
Under this project:

- Improved vegetable cultivation- amog 4,009 HH
- Improved agriculture cultivation- 1,195 households
- Livestock intervention covered 399 households
- Farm mechanisation covered 708 households

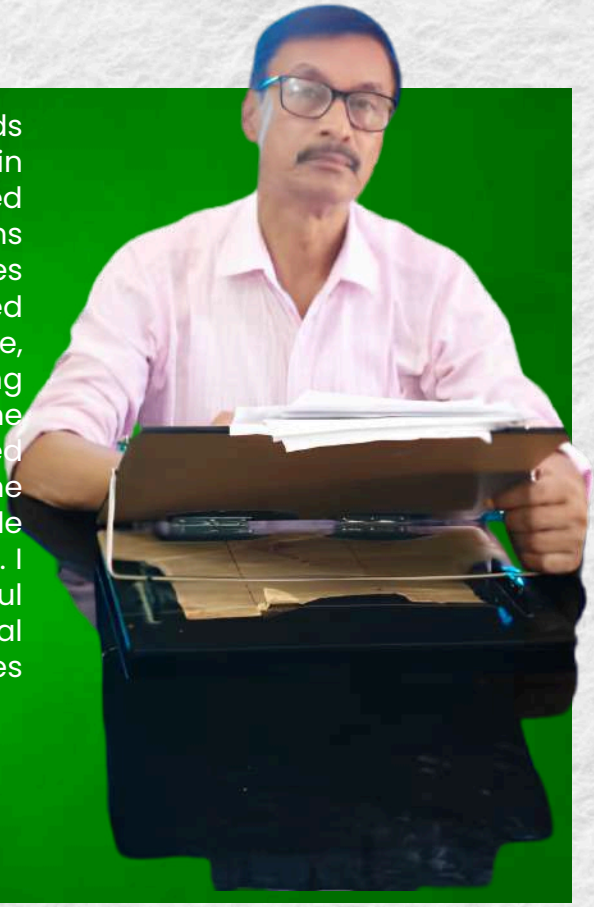

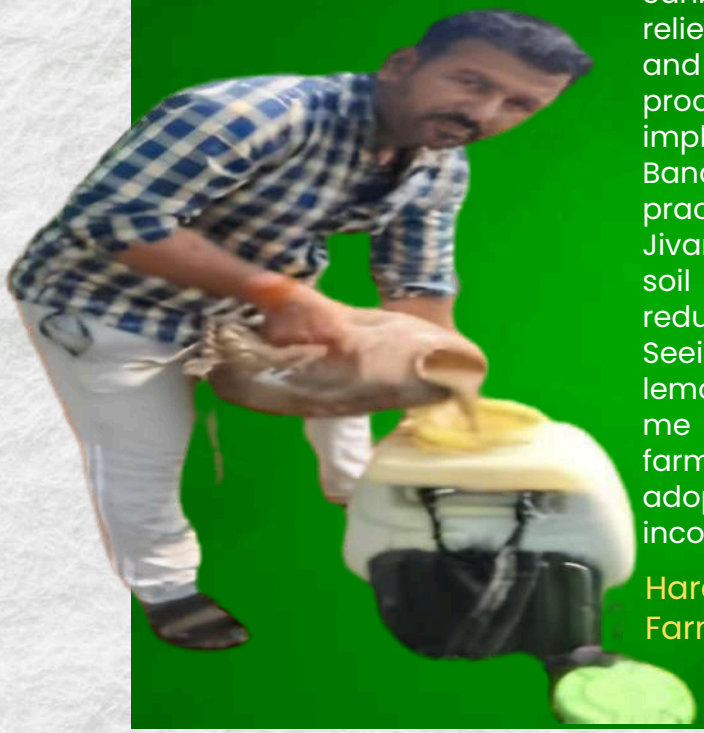

The interventions undertaken during FY 2025–26 reflect IGS's commitment towards building resilient and self-reliant rural communities through an integrated approach encompassing sustainable agriculture, livestock development, climate-resilient practices, renewable energy, community infrastructure, women's entrepreneurship, and institutional strengthening. By promoting local leadership, enhancing community capacities, fostering market linkages, and facilitating convergence with government and other stakeholders, IGS has contributed towards improving livelihoods, strengthening social capital, and creating long-term ecological and economic resilience across diverse geographies.

During my visit to the HDFC FDP Highlands Project villages under Dakshin Chilabandha Gaon Panchayat, I observed the positive impact of the interventions implemented by Indian Grameen Services (IGS). The project has contributed significantly to strengthening agriculture, improving livelihoods, and promoting holistic community development. The commitment of the IGS team, combined with the active participation of the community, has resulted in visible improvements in the lives of the villagers. I appreciate IGS for its meaningful contribution to sustainable rural development and extend my best wishes for its continued success.

Rajib Kumar Borah,
Block Development Officer, Naduar Development Block,
Sonitpur, Assam

I am Harendra Raghuvanshi from Semri Sahbas village, Madhya Pradesh. For years, I relied on chemical farming, but rising costs and declining soil fertility reduced my farm's productivity. Through the project intervention implemented by IGS and supported by Bandhan Bank, I learned organic farming practices such as using vermicompost, Jivamrit, and natural pesticides. Today, my soil is healthier, cultivation costs have reduced, and my crops perform better. Seeing my lemon saplings started producing lemons after application of Amrit Pani gave me confidence to fully embrace organic farming. I now encourage fellow farmers to adopt sustainable practices for better incomes, healthier soil, and a greener future.

Harendra Raghuvanshi,
Farmer, Ashoknagar, Madhya Pradesh

Non-Farm Entrepreneurship & Enterprise Development

5 GENDER EQUALITY

8 DECENT WORK AND ECONOMIC GROWTH

March 2026

States	02
Districts	12

Villages	341
Households	26,500

IGS promotes non-farm livelihood opportunities by enabling rural women and youth to develop sustainable enterprises, build skills, and access new market opportunities. Through entrepreneurship development, enterprise incubation, skill enhancement, and value addition, IGS supports communities in diversifying their income sources and strengthening their economic resilience.

Women-led Entrepreneurship: Empowering women to build and manage enterprises through business skills, financial literacy, resources, and market access.

Youth Skilling & Entrepreneurship: Equipping rural youth with skills, training, and support to build sustainable livelihoods and enterprises.

Off-Farm Processing & Value Addition: Small-scale processing of local produce to improve quality, add value, and increase rural incomes.

Rural Tourism-based Enterprises: Promoting community-led tourism, homestays, and local services to create livelihoods while preserving local culture and natural heritage.

Artisan-based Livelihoods: Strengthening traditional crafts through skill development, improved product quality, and better market access.

Food Processing Enterprises: Promoting women- and community-led food processing for value addition, enterprise growth, and higher incomes.

Youth Enterprises & Rural Services: Promoting youth-led enterprises and rural services to create local jobs and improve access to essential services.

2,764 nos. of skill & livelihood trainings provided

64 nos. of homestays supported under Rural Tourism program

Key Highlights

Safe Tourism Destination for Women project across 6 districts Narmadapuram, Chhindawara, Seoni, Umaria, Shahdol and Anuppuraims of Madhya Pradesh. The objective is to create women-friendly and safe environments at tourist destinations. Under this program:

- Employment generation of 05 women with avg monthly INR 8,000 - INR 14,000
- Self owned bussiness by 265 women with avg monthly INR 7,000 to INR 8,000
- Types of skill development activities: Hospitality & Housekeeping, Food & Beverage, Handicraft, Retail & Sales, Guide, Front Office/Receptionist, Computer Operating, Gipsy Driving, Mehendi Training, Tour & Travel, Security Guard, Photography

In **4 districts Narmadapuram, Chhindawara, Seoni and Umaria of Madhya Pradesh, IGS is supporting the Rural Tourism** project by orienting the community for constructing homestays which includes orientation and mobilization efforts. The project targets specially the Gond tribes.
INR 15,21,000 /- has been the collective earnings so far from days staying in the Rural Tourism project.

Maha Samruddhi Yojana at Nandurbar & Nasik district, Maharashtra. The primary objective of the project is to reach the extremely vulnerable, tribal communities including Konkana, Mahadev Koli, Katkari (PVTG), Bhil, Pawra, and Gwal to strengthen sustainable livelihoods and build future resilience of 16,000 households. Under this program:

- A network of 28 Cluster Level Federations (CLFs) and 571 Community Sakhis was established and strengthened to facilitate household mobilization, livelihood planning, and community-led implementation.
- Under the Intensive Livelihood Programme (ILP), 5,179 household profiles (86%) were completed, 3,140 micro-plans were prepared, and 2,194 households received livelihood technical training,
- Identified livelihood investments for 909 micro-enterprises, 1,895 goat-rearing units, 335 poultry units, and agriculture-based activities,
- Access to essential entitlements through 93% Aadhaar coverage, 87% bank account linkage, and 75% convergence with government welfare schemes among target households, improving access to essential entitlements and financial services.

IGS continues to strengthen non-farm livelihoods by promoting entrepreneurship, skill development, rural tourism, value addition, and community-led enterprises. By empowering women, youth, artisans, ultra poor households and vulnerable communities with sustainable livelihood opportunities, market access, and institutional support, the organisation is fostering resilient local economies, enhancing household incomes, and creating pathways for inclusive and sustainable rural development across diverse geographies.

I belong to Barisurangs village in Nandurbar, where my family depended on seasonal migration for our livelihood. After joining the Maha Samruddhi Yojana, regular guidance from the Samruddhi Sakhi helped me recognise my own skills and build confidence. I began making traditional clay stoves and earned my first income by selling them. I also received support to access important government documents and social security benefits. This journey has shown me that even small skills can create new opportunities when someone believes in you and guides you in the right direction.

Ms. Guli Kantilal Vasave
Nandurbar, Maharashtra

My name is Poonam Nagwanshi from Kajra village, Tamia. With support from Indian Grameen Services and Madhya Pradesh Tourism Board supported Rural Tourism Project, I established my homestay in 2021, which started in 2024. Today, regular tourist visits provide a stable income, enabling me to support my family. I sincerely thank Indian Grameen Services for transforming my livelihood

Ms. Poonam Nagwanshi
Tamia, Madhya Pradesh

PROGRESS CHRONICLES

Cultivating Sustainability through Organic Farming

Ms. Salho Hembrom, a small farmer from Kalaidanga village in Murshidabad, cultivated paddy on her 1.3-acre landholding using chemical fertilizers.

She faced challenges such as high chemical input costs of nearly ₹20,000 annually reduced her profitability and placed financial pressure on her farming activities. Limited awareness of sustainable alternatives kept her dependent on input-intensive practices, which gradually affected soil health and long-term productivity.

Under the Project SAMARTH implemented by IGS and supported by Azim Premji Foundation, Salho received demonstrative training on the preparation, application, and management of vermicompost. Through community contribution, she established 08 vermicompost units, enabling her to independently produce organic inputs for farming. She was also introduced to vermiwash (soil nutrient).

The adoption of vermicompost across her 1.3 acres helped Salho reduce cultivation costs by approximately INR 4,400 per season. She also generated an additional income of INR 1,000 by selling one quintal of vermicompost locally (INR 10/kg), marking her transition from a farmer to a small rural entrepreneur. Improved use of organic inputs contributed to better soil health and laid the foundation for sustainable agricultural productivity. Encouraged by the positive outcomes, Salho now plans to scale up production to 25 quintals annually, while also motivating other farmers in Kalaidanga village to adopt organic farming practices.

From a Modest Income to a Thriving Rural Enterprise

Laxmi Dilip Naik, a 31-year-old resident of Karanjwe village in Nandurbar district, is the sole earning member of her family through her work as a school cook. With a monthly income of just ₹1,500, meeting the basic needs of her four-member household was a constant struggle. Although she aspired to start a small business, limited financial resources and lack of infrastructure prevented her from pursuing the opportunity.

Through Project SAAKSHYAM, implemented by IGS with support from HDFC Bank Parivartan, Laxmi received assistance to establish a grocery shop in her village. The project provided a shop counter, storage racks, initial stock of essential commodities, and continuous mentoring on business management through her Self-Help Group and the IGS team.

The enterprise quickly gained the trust of the local community due to its convenient location and availability of daily household essentials. Within a short period, her monthly sales increased significantly, enabling her to earn over INR 30,000 per month. She has reinvested her profits to expand her inventory, further strengthening the sustainability of her business.

Today, Laxmi is a confident entrepreneur and the primary contributor to her family's income. Her journey illustrates how timely livelihood support, entrepreneurship development, and continuous mentoring can transform vulnerable rural women into financially independent business owners while inspiring others to pursue self-employment opportunities.

Community Action for Water Security and Sustainable Farming

For over 20 years, a silted and shallow nallah around Anand's farmland caused repeated flooding, soil erosion, and crop losses of up to 50%, leaving farming uncertain and parts of the land fallow. With agriculture as their only livelihood, declining productivity and water scarcity severely impacted both families. Through the Samruddha Kisaan Project, IGS and the VDC addressed natural resource management as a shared, community-wide priority. With active farmer participation, a 275-metre stretch of land, including the original nallah, was restored to address long-standing challenges of flooding, water scarcity, and land degradation.

The impact has been transformative: 2,778 cubic metres of water storage created, water availability extended by 3–4 months, and groundwater levels increased by 1.5–2 feet. Flooding stopped, and ¾ acre of land was reclaimed.

For the first time, they cultivated rice, harvesting 3 quintals initially, now expanding to 6–10 quintals. Ashok's income increased by 150%, from INR 20,000 to around INR 50,000, in one season, indicating improved productivity and crop diversification. With improved water availability and better soil moisture retention, Anand and Ashok now cultivate two crop cycles a year. Neighbouring families with deeper wells have also benefited from the extended water availability.

Restoring Hope Through Safe Learning Spaces

For children in the remote villages of Naduar Block, Sonitpur district, recurring floods and storms had left schools and Anganwadi Centres in poor condition. Damaged roofs, leaking classrooms, unsafe floors, inadequate sanitation, and the lack of reliable drinking water disrupted learning and created an unsafe environment for children. Teachers and Anganwadi workers faced continuous challenges in delivering quality education and early childhood care.

Under the HDFC FDP Highlands Project, implemented by IGS and supported by HDFC Bank Parivartan Initiative, a comprehensive renovation initiative transformed 06 numbers of Lower Primary Schools and 04 numbers of Anganwadi Centres into safe, vibrant, and child-friendly learning spaces. Classrooms were repaired and renovated, while colourful BALA (Building as Learning Aid) artwork and educational murals converted school walls into interactive learning tools. The project also restored drinking water facilities, toilets, and sanitation infrastructure, installed handwashing stations, and provided child-friendly flooring, teaching-learning materials, educational kits, and play equipment.

The intervention created an enabling environment where children could learn, play, and grow with confidence. Improved sanitation and hygiene facilities encouraged better health practices among students, while the enhanced infrastructure increased school attendance and classroom engagement. Anganwadi workers reported that children were more active, enthusiastic, and comfortable during learning and play activities, demonstrating how improved educational infrastructure can strengthen early childhood development and promote quality education in disaster-prone rural communities.

Before Intervention

After Intervention

Empowering Rural Women through Livestock Entrepreneurship

Maya Pal from Patni village in Babai Block belonged to a farming family that depended primarily on agriculture and livestock rearing for its livelihood. Although she had completed her education up to the higher secondary level, she married at a young age and, with limited livelihood opportunities, never imagined contributing financially to her household.

Her journey changed when she joined as a Gramsakhi in the Shwetdhara Programme implemented by IGS and supported by IDFC FIRST Bank. With regular training, capacity-building support, and continuous mentoring from IGS, Maya strengthened her technical knowledge and interpersonal skills. Through consistent household visits and close coordination with the veterinary support team, she built the confidence of livestock farmers and promoted access to quality animal health services within the village.

Her dedication resulted in a remarkable increase in the sale of livestock feed, while her outreach also encouraged greater community participation in the programme and expanded local membership.

Today, Maya earns an average monthly income of INR 8,000, enabling her to contribute meaningfully to her family's livelihood while achieving financial independence.

Beyond economic gains, Maya has emerged as a respected community resource person and an inspiring role model for rural women. Her story demonstrates how the right opportunities, combined with knowledge and institutional support, can empower women to become confident entrepreneurs and agents of change within their own communities.

IGS IN ACTION: CONFERENCES & BEYOND

Dr. Sanjib Sarangi, COO, IGS, engaged as a panellist in a National Workshop on "Rejuvenation of India's Rivers: Nature-Based Solutions and Policy Pathways for Scalable Solutions" at New Delhi, sharing IGS's experiences on community-led ecological restoration, nature-based solutions, and pathways for scaling environmental interventions.

Mr. Hariom Goswami, Regional Head – Maharashtra & Chhattisgarh, represented IGS at "India Water & Rivers Forum 2025" at New Delhi, engaging with sector experts and institutions to strengthen collaborations for community-based water conservation and ecosystem resilience.

IGS participated as a Knowledge Partner in the "9th edition of the India Land & Development Conference" at Ahmedabad, where Dr. Sanjib Sarangi moderated a session on resilient tourism, highlighting community-based tourism models and sustainable development approaches.

IGS showcased its flagship livelihood and ecological restoration models at "RESTORE: Accelerating India's Restoration Economy" held at New Delhi.

IGS team participated in the Earth Summit 2025 held at Hyderabad under the theme “Empowering Rural Innovation for Global Change”

Dr. Sanjib Sarangi represented IGS at OTM Conference (India's premier tourism conference and trade show that brings together 2,200+ exhibitiors from over 60 countries, including 45+ National Tourism Organisations) at Jio World Convention Centre, Mumbai.

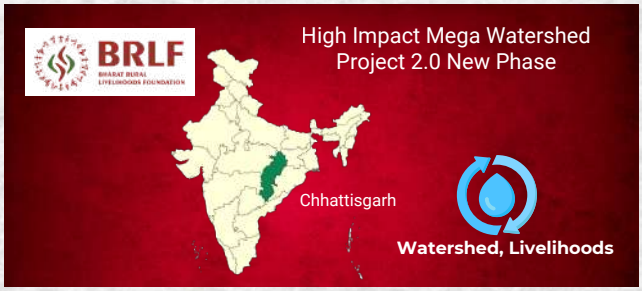

IGS participated in the National Conference on “Transforming Rural Livelihood Landscape in India: Empowering Rural Communities through Investing in People, Planet and Prosperity (3Ps)” at Hyderabad, showcasing models such as Shwetdhara, Riparian Restoration, and Rural Tourism. IGS also chaired a panel discussion on inclusive livestock-based rural economies, bringing together leaders from government, CSR, and development organizations.

IGS participated in the Travel Mart held at Bhopal, organized by MPTB and FICCI, that brought global tourism stakeholders together. Participants from four homestay villages showcased performing arts and promoted homestays in the presence of 700+ national and international delegates.

TOGETHER FOR CHANGE

IGS signed a grant agreement with the **Bharat Rural Livelihood Foundation (BRLF)** to implement the project **High Impact Mega Watershed Project 2.0 New Phase in Chhattisgarh**. The project aims to enhance rural livelihoods and ecosystem resilience through integrated watershed management by conserving natural resources, improving soil and water health and empowering communities with capacity building.

IGS signed a grant agreement with **ELEMENT-Nagaland** to implement the project **Enhancing Landscape and Ecosystem Management Project (ELEMENT) in Northeastern Region, World Bank supported Project, Nagaland**. The objective is to restore and strengthen landscape through forest landscape management and ecosystem services management towards building climate resilience and sustainable livelihoods in Nagaland, improve landscape management and increase environmental and economic benefits for targeted forest-dependent communities in Nagaland.

IGS signed an agreement with **STICHTING BRAC INTERNATIONAL** to implement the project **Maha Samruddhi Yojana (MSY), expansion of another 10K households (under the sub-scheme of NRLM) in Nandurbar and Nashik districts of Maharashtra**. The objective of the project is to reach extremely vulnerable populations, especially women, to not only alleviate poverty and improve social outcomes but also build the future resilience of 6,000 households across two selected blocks in each of the identified districts during the first phase.

IGS signed a grant agreement with the **Bharat Rural Livelihood Foundation (BRLF)** to implement the project **High Impact Mega Watershed Project, New Cluster, Gondia, Maharashtra**. The project aims to enhance rural livelihoods and ecosystem resilience through integrated watershed management by conserving natural resources, improving soil and water health and empowering communities with capacity building.

IGS signed an agreement with **NatWest Digital Services India Private Limited** to implement the project **Support Ecological Security and Livelihoods of Ghamroj and Alipur village at foothills of the Aravalli hills, Gurugram**. The project aims rejuvenation of waterbodies, restoration of degraded land through plantation of native species, promotion of biodiversity education and community-led conservation awareness.

IGS signed an agreement with **Bandhan Bank** to implement the project **Empowering Farmer Producer Organisations Through Agroforestry, Climate Smart Agriculture Practices, and Agribusiness Augmentation in Madhya Pradesh and Rajasthan**. The proposed project seeks to empower Farmer Producer Organisations (FPOs) in Madhya Pradesh and Rajasthan by strengthening their institutional and business capacities, enabling better access to finance, and enhancing their ability to absorb credit for agribusiness growth. The project also aims to integrate climate-smart agriculture practices and agroforestry-based interventions into the FPO ecosystem to ensure environmental sustainability.

IGS signed an agreement with **Planeterra** to implement the project **Pakshi Teertha: Community-Led Conservation & Ecotourism, Beladwara village of Nayagarh District, Odisha**. The objective is to demonstrate women-led conservation of the migratory stork population, creating a unique and authentic nature-based responsible tourism opportunity for the visitors.

WHAT OUR PARTNERS SAY

Partnering with Indian Grameen Services under the Umed's Maha-Samruddhi Yojana has demonstrated the value of combining strong local institutions with global learning. IGS's grassroots presence and understanding of communities in Maharashtra, complemented by BRAC's experience with the Graduation approach, provide a strong foundation for reaching households facing the greatest barriers to economic inclusion and social empowerment. This partnership is an opportunity to build solutions that are locally grounded, scalable and sustainable.

MS. SHWETA BANERJEE
India **Country Lead**
BRAC International, New Delhi

It was inspiring to witness firsthand the impact of Indian Grameen Services' work in Nandurbar during my visit to the project area. Through our partnership under the Samruddha Kisan Project, IGS has demonstrated a remarkable ability to build community ownership while strengthening water security, livelihoods, and overall rural development.

The transformation across 15 villages and the positive impact on 4,766 households reflect the dedication, professionalism, and grassroots connect of the IGS team. Their commitment to enabling communities to lead their own development journey is truly commendable.

I congratulate the entire IGS team and wish them continued success in creating sustainable and inclusive change.

MR. AMIT SINGH
Chief Human Resources Officer
ASK Group

NatWest India values it's longstanding partnership with Indian Grameen Services, built on a shared commitment to inclusive development and environmental sustainability. Our collaboration across multiple states continues to create meaningful impact. The ongoing projects in Delhi NCR, Rawta's Green Revival: Building Climate Resilience through Sustainable Practices and Support Ecological Security and Livelihoods of Ghamroj and Alipur village at foothills of the Aravalli foothills, demonstrate how community-led action can strengthen climate resilience, restore natural ecosystems, and enhance rural livelihoods. This partnership exemplifies the transformative power of purpose-driven collaboration.

MS. TANIA CHATTERJEE
Head – Sustainability
NatWest Digital Services India Pvt. Ltd

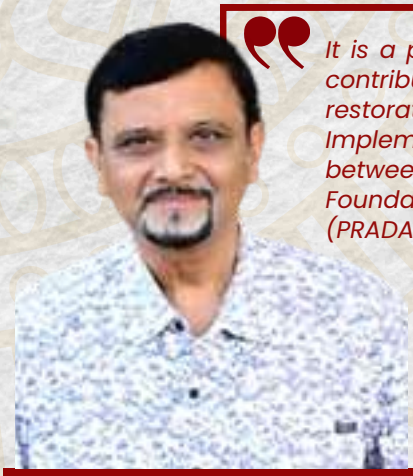

Our collaboration with Indian Grameen Services (IGS) has been highly effective in strengthening grassroots farmer-owned institutions and building local capacity. Their dedicated field presence and focus on sustainable rural livelihoods have helped translate vision into meaningful ground-level impact. We value this partnership and appreciate their ongoing commitment to rural development.

MR. AMRIT KUMAR BARNWAL
AGM (DD)
NABARD, Nalanda

IGS, as a valuable partner, working with the Madhya Pradesh Tourism Board since 2019, continuosly supporting in promotion of rural tourism around the Bandhavgarh, Pench, and Satpura Tiger Reserve areas, and implementing the Safe Tourism Destination for Women project across eight tourist destinations in Madhya Pradesh. Through these initiatives, IGS has strengthening women's participation, built local capacities, supported community-led institutions, and promoting inclusive tourism and sustainable livelihoods, contributing to responsible tourism development in the state. We appreciate IGS's continued commitment to building safer, more inclusive, and women-friendly tourism destinations.

MR. DP SINGH
Director
Madhya Pradesh Tourism Board (MPTB)

It is a privilege to commend India Grameen Services (IGS) for their exemplary contribution to the CG HIMWP 2.0 project, a flagship initiative on biodiversity restoration, climate-resilient agriculture, and sustainable livelihoods. Implemented across 35 blocks of Chhattisgarh, the program is a partnership between BRLF and the Government of Chhattisgarh, supported by Axis Bank Foundation and managed by the State Level Project Management Team (PRADAN), with a strong focus on gender integration.

Although IGS joined the project in March 2025, the team quickly mobilized and scaled operations by leveraging training and capacity-building support from BRLF and SPMU. Their agility, professionalism, and results-driven approach have enabled tangible impact within a short period.

I commend the IGS team for their dedication and commitment and am confident they will continue to deliver high-impact outcomes within the stipulated timeline. Best wishes to the entire team for their continued success.

DR. SUMIT ROY
CG HIMWP 2.0 BRLF State Anchor.
Senior Program Officer &
Technical Advisor
BRLF, New Delhi

CATALYSTS OF DEVELOPMENT

I am Payel Das, Livestock Expert with Indian Grameen Services under the SAMARTH Project in Farakka Block, Murshidabad. Since joining the project, I have had the privilege of working closely with landless and tribal families, helping them adopt sustainable goat-rearing practices through regular technical guidance and handholding support. Witnessing reduced livestock mortality and improved household incomes has been deeply rewarding. This journey has taught me that lasting change is driven by knowledge, trust, and collective effort. Every positive transformation in the community reinforces my belief that empowering people is the foundation for building resilient and sustainable livelihoods.

Ms. Payel Das
Livestock Expert, Project SAMARTH,
Murshidabad, West Bengal

Since joining Indian Grameen Services in January 2025 as a Social Mobilization Officer under the Saakshyam Project in Nandurbar, I have had the opportunity to work closely with rural communities and local institutions to strengthen their capacities and promote community-led development. The most fulfilling part of my journey is witnessing people, especially women, gain the confidence to lead and solve local challenges collectively.

My experience has reaffirmed that sustainable development begins with empowered communities. Every milestone achieved at the grassroots inspires me to continue working towards building resilient, inclusive, and self-reliant rural communities.

Ms. Pinky Jaiswal
Social Mobilization Officer, Project SAAKSHYAM,
Nandurbar, Maharashtra

I joined the IGS family as a Community Resource Person (CRP) in September 2023, at a time when I was rebuilding my life after the untimely loss of my husband. As the sole caregiver for my young son and elderly father-in-law, stepping out to work was a difficult but life-changing decision. Through the APC Project, I gained the knowledge, confidence, and skills to support tribal and marginalised women farmers in improving their livelihoods. Today, I am financially independent and can support my family with dignity. I will always remain grateful to IGS for believing in me and helping me rebuild my life

Ms. Rinki Behera,
Community Resource Person
Agriculture Production Cluster Project, Sundargarh, Odisha

The Shwetdhara Project has created a meaningful livelihood opportunity for women from small and marginal farming families by enabling them to become Gramsakhi entrepreneurs. Without any initial capital investment, they are able to earn a sustainable income while serving livestock farmers within their own villages. Beyond improving rural livelihoods, the initiative has enhanced women's confidence, strengthened their economic independence, and encouraged their active participation in community development.

It is inspiring to see women emerge as trusted service providers and leaders, demonstrating how the right opportunities can transform lives and strengthen rural communities.

Ms. Sarswati Patel
Gramsakhi, Shwetdhara Project, Narmadapuram, Madhya Pradesh

AWARDS & RECOGNITIONS

From Community Partnerships to State Recognition: IGS Honoured for Rural Tourism

IGS has been recognized by the Madhya Pradesh Tourism Board, Govt. of Madhya Pradesh as Best Project Support Organizations (PSO) for its contributions to the Rural Tourism Project. The award was presented by Hon'ble Chief Minister Dr. Mohan Yadav during the "Grameen Rang - Paryatan Sangh" event held on June 18, 2025, at the Kushabhau Thackeray International Convention Center, Bhopal.

IGS facilitated development of homestays. The recognition reaffirms IGS's commitment to community-led rural development through responsible tourism initiatives.

From Commitment to Recognition: IGS Team Bags Best APC Block Award

APC Sukruli, Mayurbhanj, Odisha – The Indian Grameen Services Team from the State Scheme Blocks of Mayurbhanj district has been honored with the Best APC Block Award by the Department of Horticulture, Mayurbhanj, for outstanding performance and impactful grassroots implementation.

Jhanjharpur FPC Honored for Excellence in Entrepreneurship in Bihar

Jhanjharpur FPC, Madhubani, Bihar was awarded the State Entrepreneurship Award by the Bihar Entrepreneurs Association at the Bihar Entrepreneurship Summit, held at Gyan Bhawan, Patna, by the Honorable Agriculture Minister of Bihar.

INDIAN GRAMEEN SERVICES

ACKNOWLEDGEMENT

We are deeply grateful to our dedicated employees, communities, and stakeholders, whose commitment and support have been the cornerstone of our progress this year. Your hard work and trust have truly made a lasting impact.

Our heartfelt thanks also go to our esteemed Board of Directors and Co-Founders for their vision and guidance, which continue to shape our journey with clarity and purpose.

It is through the collective spirit and efforts of this exceptional team that we have achieved important milestones and moved closer to our shared goals

Thank you for your continued dedication, partnership, and for journeying with us.

To our Editorial Team

"We extend our sincere appreciation to the Editorial Team—
Mr. Radheshyam Solanki,
Dr. Sanjib Sarangi,
Mr. V. Avijeet Kumar,
Dr. Anindita Gupta, and
Ms. Namrata Mondal—for their meticulous curation and dedication, which have significantly contributed to bringing this report to fruition."

WORKING TOGETHER FOR IMPACT

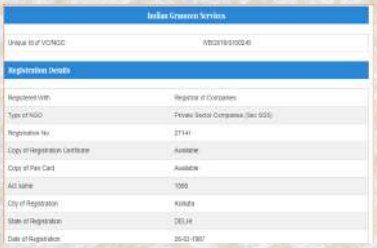

We'd like to give a heartfelt thanks to our incredible partners – the unsung heroes behind our success story. Your continuous support has been the wind beneath our wings, propelling us forward in our mission.

Together, we've achieved milestones, faced challenges, and celebrated victories. Your commitment to our cause is more than just a line item in our report; it's a testament to the power of collaboration. Here's to another year of making a difference together!
